28 *8va*

Bass

31 Position 17 - Ninth Week String B - 09:02

Bass

Position 17 - Tenth Week String D - 09:28

34 *8va*

Bass

37 Position 20 - Eleventh Week String B - 09:50

Bass

Position 20 - Twentieth Week String D - 10:12

40 *8va*

Bass

Dear Student,

I would like to focus here on some important things.

I made this guide with colors or in the way to be everything easy as possible.

Once you learn the first 6 weeks then it will be much easier because the names of the positions with the same color are the same but everything is in the octave higher.

For example Week 1 first 4 notes are On String B and we have C, C#, D, D#.

So week 7 have the same 4 notes and on the same string B - C, C#, D, D#.

Also another important thing is You have option to zoom the chart and

You will see every note with his name and accidental sign.

So this is be sure 100% that You can't mistake the notes.

If You have any questions please write me email and You can find it below.

Happy learning.

Best Regards:

Vinnie Venkov
